CoreMed

CoreMed ENT Product Portfolio

Edition 3

OVERVIEW

CoreMed is an Australian based medical distribution company, specialising in the sales and marketing of ENT products.

We provide a professional, efficient and experienced approach towards the product and service requirements of hospital operating theatres, emergency departments and medical practices.

New and innovative products are regularly being reviewed so these can be introduced to hospitals and physicians to provide improved patient care and surgical outcomes.

REUSABLE INSTRUMENTS

CoreMed also supply a comprehensive range of Spiggle & Theis **reusable instrumentation** for Otology, Sinus, Rhinology, Larynx, Endoscopy and Oral Cavity – **Scan to download** or request a hard copy.

1. OTOLOGY **4-14**
- TubaVent® Eustachian Tube Dilation Balloon **4**
- Disposable Suction Tubes – Micro **5**
- Ventilation Tubes – Fluoroplastic, Silicone, Titanium **6**
- Silicone Sheeting for Middle Ear Surgery **7**
- Cerumen Hook **7**
- Jobson Horne - Ear Curette/Cotton Carrier **7**
- Disposable Ear Specula **8**
- Crocodile Forceps & Scissors **9**
- Panetti Endoscopic/Microscopic Instruments **10-11**
- Superelastic Nitinol Stapes **12-13**
- Myringotomy Kits **14**

2. RHINOLOGY **15-18**
- Disposable Suction Tubes – Frazier/Sinus **15**
- Nasal Speculum **15**
- Nasal Forceps **16**
- Nasal Splints **17-18**
- Nasal Thudicums **18**

3. BANDAGES
- Ear and Head Bandages **19**

4. ORAL CAVITY
- Gag Covers, Medasil **20**
- Disposable Suction Tubes for Microlaryngoscopy (MLS) **20**
- VoiceInject® **20**

5. STERILE COVERS
- Sterile Covers for Microscopes **21**

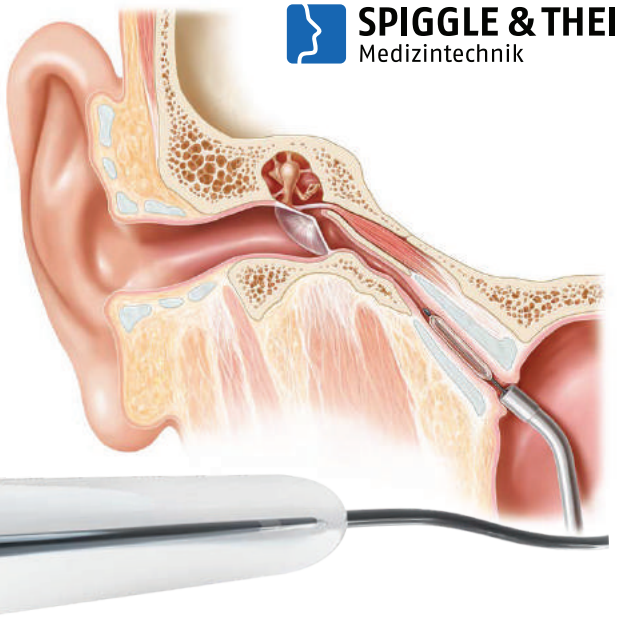
6. LID IMPLANTS
- Flexible Platinum Eyelid Weights **22**

7. INOMED NERVE MONITOR & CONSUMABLES **23-25**
- Inomed C2 Xplore Nerve Monitor **23**
- Stimulation Probes **24**
- Thyroid Electrodes and Accessories **24**
- Facial Electrodes **25**

8. REUSABLE INSTRUMENTS
- Reusable Instruments **26**

TubaVent® Balloon Dilatation System for Eustachian Tube Dysfunction

SPIGGLE & THEIS Medizintechnik



- The Spiggle & Theis TubaVent® dilation balloon is used to treat patients with chronic Eustachian Tube Dysfunction, and is inserted via the nasal cavity.
- Optimum size guarantees the complete dilatation of the cartilaginous part.
- Ultra smooth surface protects the mucous membrane.
- Controlled dilatation prevents overexpansion of the Eustachian Tube.
- A rounded catheter tip and the special catheter surface (shaft and balloon) allow atraumatic advance of the catheter.
- Formerly the Bielefeld Balloon Catheter
- **Over 120,000 applications globally since 2010.**

TubaVent® ET Short Balloon Catheter

- Dilation balloon for the Eustachian Tube
- Used with disposable TubaInsert®
- Sterile
- Single-use

Code	Size	Packaging
2080-1236320	WL 236 mm, balloon 3.28 x 20 mm	Single

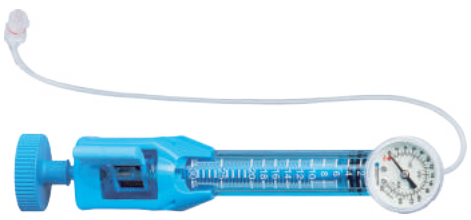
TubaInsert®

- Improved handling due to a shorter insertion distance in case of narrow anatomic conditions
- Optimal ergonomics and a serrated surface allow comfortable and safe handling
- Compatible in length with TubaVent® short
- Especially well suited for first time users
- Sterile
- Single-use

Code	Type	Packaging
2080-2045	45° short curve	10 pieces / box
2080-2070	70° short curve	10 pieces / box

Inflation Pump

- Inflation pump (30ml) with 50 cm extension tube
  - 30 atm pressure gauge with PSI scale
- Luer lock connector
- Sterile
- Single-use



Code	Size	Packaging
2080-9030040	50 cm including extension hose	Single

1. OTOLOGY: DISPOSABLE SUCTION TUBES – MICRO

Code	Length	Diameter	Colour	Connection
301004	60 mm	0.4 mm	grey	Luer
301007	60 mm	0.7 mm	black	Luer
301010	60 mm	1.0 mm	cream	Luer

1. OTOLOGY: SILICONE SHEETING

Miltheis Silicone Sheeting for Middle Ear Surgery, Sterile

- High quality medical grade silicone
- Popular thickness 0.13 mm
- Precut and sterilized
- Transparent or blue

Code	Size	Type	Packaging
1710000-B	0.13 x 20 x 6mm	Silicone Sheeting Blue	10 sets of 3
1710001-B	0.13 x 40 x 6mm	Silicone Sheeting Blue	10 sets of 3
1720000	0.13 x 15 x 15mm	Silicone Sheeting Clear	10 sets of 2

1. OTOLOGY: SPIGGLE & THEIS MENTIO

Cerumen Hook

- Carbon fibre filled nylon
- Non-sterile, singe-use instrument

Code	Size	Packaging
5001007	Hook size 0.3 cm	100 pieces / box
	Total length 13.5 cm	

Jobson Horne - Ear Curette / Cotton Carrier

- Combination instrument with round loop and cotton wool carrier
- Carbon fibre filled nylon
- Non-sterile, singe-use instrument

Code	Size	Packaging
5001008	Length cotton wool carrier 1.1 cm	100 pieces / box
	Total length 15 cm	

1. OTOLOGY: DISPOSABLE EAR SPECULA

Ear Specula - Hartmann Design

- Matte inner surface
- Good grip on rim
- Plastic (polypropylene)
- Non-sterile
- *Not suitable for use with otoscopes.*

Code	Type/Size	ID	OD	Packaging
5001001	0	2.1 mm	3.4 mm	200 pieces / box
5001002	1	3.2 mm	4.5 mm	200 pieces / box
5001003	2	4.0 mm	5.3 mm	200 pieces / box
5001004	3	5.2 mm	6.5 mm	200 pieces / box
5001005	4	6.5 mm	7.8 mm	200 pieces / box

Dispenser for disposable ear specula:

- 5 compartments
- 3 mm transparent acrylic glass
- labelled by inserter for sizes 0-4

Code	Packaging
5001000	Single

DTR CONSUMABLES

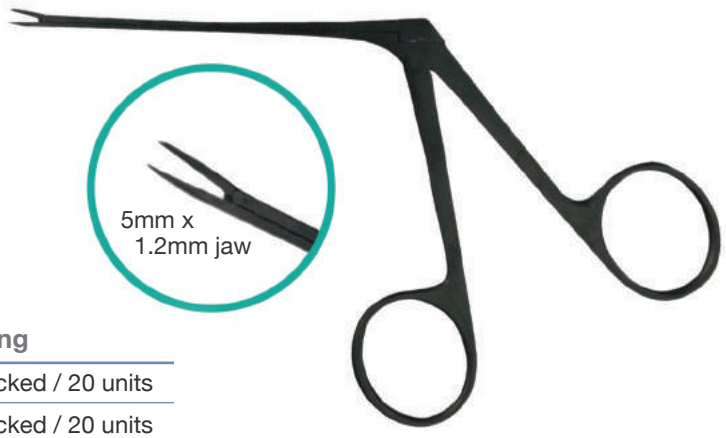
Ear Specula - Shea

- Three sizes of oval bevelled shape to suit many procedures
- Matte black finish to improve visibility under microscope
- Sterile

Code	Size	Packaging
MD-SSP-0501	Size 1 (3.5 mm x 4.1 mm)	Disposable, single packed, box of 50
MD-SSP-0502	Size 2 (4.5 mm x 5.5 mm)	Disposable, single packed, box of 50
MD-SSP-0503	Size 3 (5.5 mm x 7.5 mm)	Disposable, single packed, box of 50

Crocodile Micro Forceps

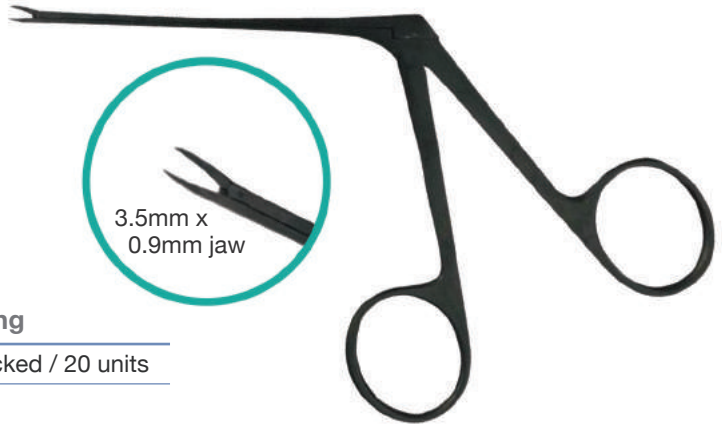
- 5mm jaw
- Single-use avoids costly repairs to damaged or worn jaws
- Available in steel and matte black finish
- Eliminates risk of contamination from occluded surfaces
- High quality stainless steel with precise jaw action



Code	Finish	Packaging
DTR-CF-2001-S	Steel	Single packed / 20 units
DTR-CFB-2001-S	Matte black	Single packed / 20 units

Crocodile Fine Jaw Micro Forceps

- Single-use avoids costly repairs to damaged or worn jaws
- Eliminates risk of contamination from occluded surfaces
- High quality stainless steel with precise jaw action

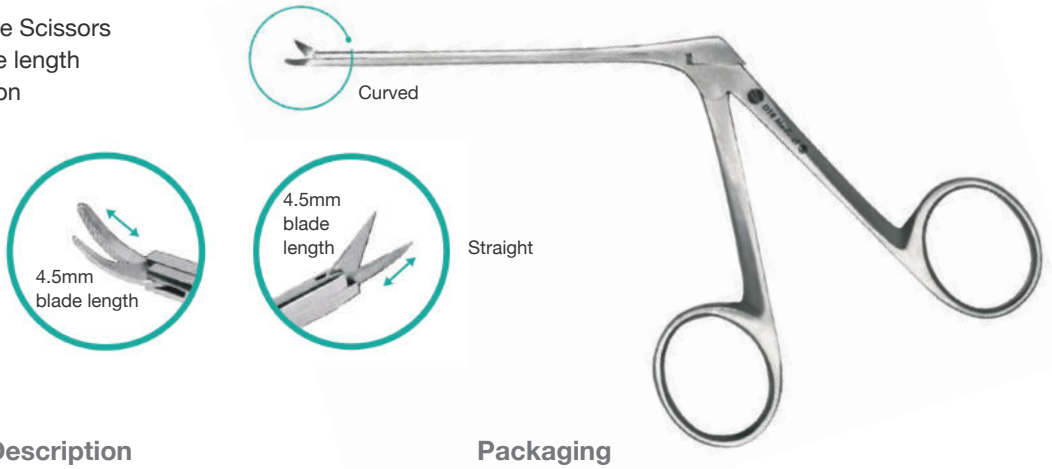


Curved

Code	Finish	Packaging
DTR-CFBF-2001-S	Matte black	Single packed / 20 units

Crocodile Scissors

- Single-use Crocodile Scissors with a 4.5 mm blade length
- Precise cutting action



Code	Description	Packaging
DTR-CSS-1001-S	Crocodile Scissors Straight stainless steel	Single packed / 10 units
DTR-CSC-1001-S	Crocodile Scissors Curved stainless steel	Single packed / 10 units

Advantages of the Endoscopic/Microscopic Instruments by Prof. Panetti:

- Enables easier removal of residual cholesteatoma
- Saves time
- Less traumatic for the patient
- Dissection and preparation with concurrent suction
- Effective suction control

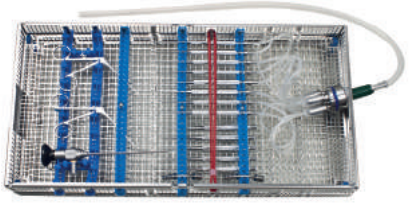
10-840-01	



- Irrigation component for System Screen Basket Panetti Instruments

Code
10-845-01

New Generation of self crimping Nitinol Pistons

The piston's hook is usually made of titanium, platinum, PTFE or thermo-reactive nitinol.

These types of pistons need an additional closing step to fix the hook around the incus.

This is either done by crimping or heating, dependent on the material.

The new generation pistons have a hook manufactured from **Superelastic Nitinol** which makes the procedure simpler and quicker on account that the pistons:

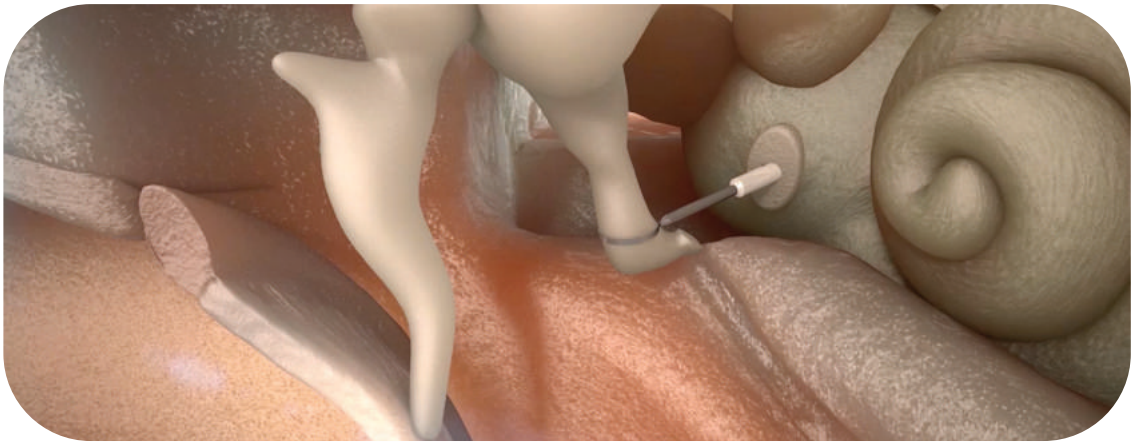
- are self crimping
- do not need an additional closing step
- do not need applied heat

The **Superelastic Nitinol** piston delivers excellent results and is safe for the patient due to:

- easy handling
- minimum force needed for insertion
- optimal pressure distribution on the incus
- shape maintenance

Preyer incus fork for hook size determination

Code	Description
10-670-00	Reusable

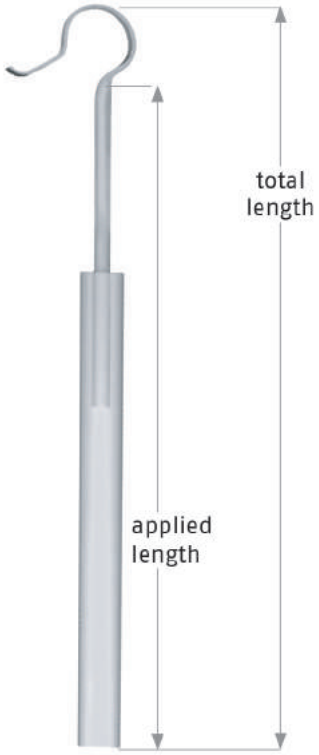


Implanted Superelastic Nitinol Stapes

Spiggle & Theis Superelastic Stapes Prostheses Nitinol/PTFE, 1 piece, sterile

Self crimping Nitinol Pistons
The Superelastic Nitinol piston delivers excellent results and is safe for the patient due to:

- easy handling
- minimum force needed for insertion
- optimal pressure distribution on the incus
- shape maintenance



- Wire ø: 0.2 mm
- PTFE shaft ø: 0.4 mm

Incus ø standard: 0.7 mm

Code	Applied length	Total length
10740425M	4.25 mm	5.25 mm
10740450M	4.50 mm	5.50 mm
10740475M	4.75 mm	5.75 mm

Shortenable with 0.4mm ø shaft

Code	Applied length	Total length
10740600S (Shortenable)	6.00 mm	7.00 mm
10740600M (Shortenable)	6.00 mm	7.00 mm
10740600L (Shortenable)	6.00 mm	7.00 mm

- Wire ø: 0.2 mm
- PTFE shaft ø: 0.6 mm

Incus ø standard: 0.7 mm

Code	Applied length	Total length
10760425M	4.25 mm	5.25 mm
10760450M	4.50 mm	5.50 mm
10760475M	4.75 mm	5.75 mm

Shortenable with 0.6mm ø shaft

Code	Applied length	Total length
10760600S (Shortenable)	6.00 mm	7.00 mm
10760600M (Shortenable)	6.00 mm	7.00 mm
10760600L (Shortenable)	6.00 mm	7.00 mm

Incus fork for hook size determination

The average diameter of the incus is 0.7 mm, but the exact diameter can vary from patient to patient. For this reason an incus fork with 0.7 mm diameter was specially developed in collaboration with Prof. Serena Preyer, to ascertain the proper size of piston. The size of the piston is determined by simply placing the incus fork over the incus.

Size range of hook

S (small):	inner diameter < 0.7 mm
M (standard):	**inner diameter = 0.7 mm**
L (large):	inner diameter > 0.7 mm

1. OTOLOGY: MYRINGOTOMY KITS

Myringotomy Kit

Our all-in-one procedure packs contain sterilised, easy-to-use single-use instruments that are economically packaged and priced to save on cleaning and assembly costs.

- Easy to open and set up
- Ready to use
- High-quality, single-use instruments

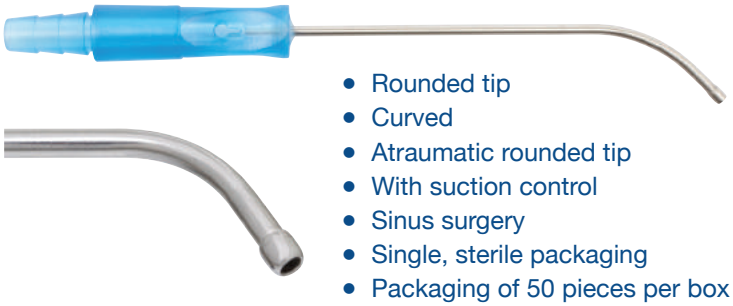
3010030	100 mm	3.0 mm
3010040	100 mm	4.0 mm



- Rounded tip
- Curved
- Atraumatic rounded tip
- With suction control
- Sinus surgery
- Single, sterile packaging
- Packaging of 50 pieces per box

2. RHINOLOGY: HARTMANN NASAL SPECULUM

- Matte surface for reduced light reflection
- Ergonomic grip
- Ribbed handle for better control
- Polyamide
- Non-sterile, singe-use instruments

Code	Size	Packaging
5002002	Large: Total length 15.8 cm	25 pieces per box
	Blade length 3.2 cm	
5002001	Small: Total length 14.5 cm	25 pieces per box
	Blade length 2.6 cm	

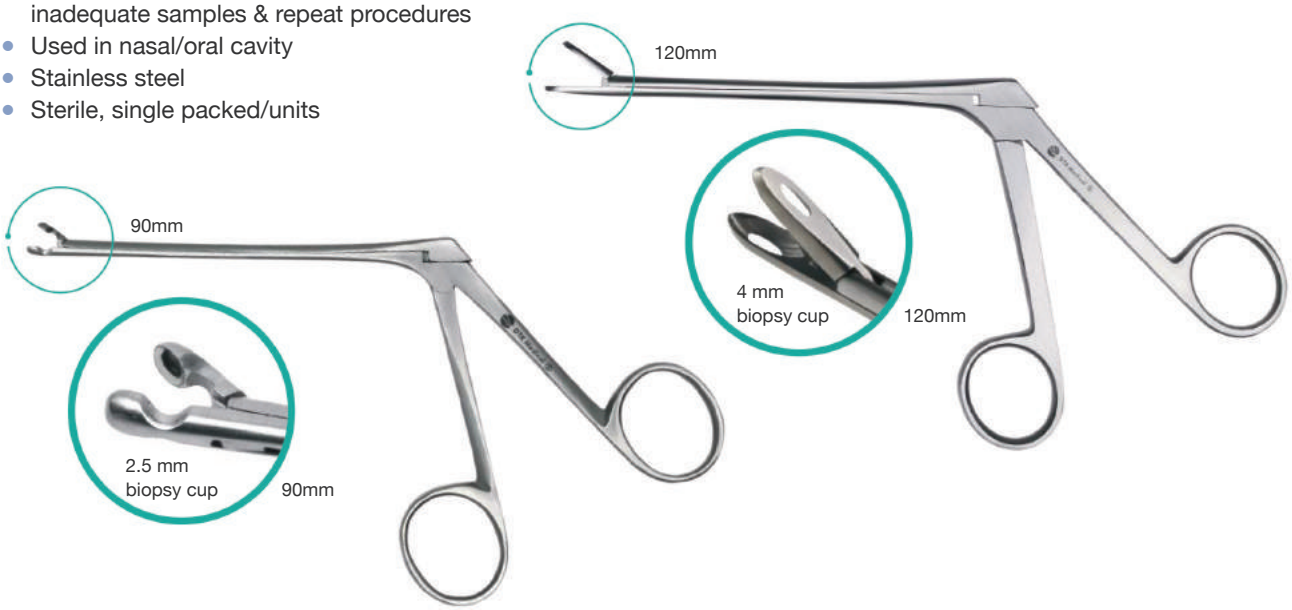
Tilley Packing Forceps

- Strong slender jaws with good grip and tips that always meet
- Single-use avoids damage or difficult to clean box joints
- Particularly suitable for clinic use
- Sterile, single packed/units

Code	Description	Size	Packaging
DTR-TNF-2001-S	Tilley Nasal Dressing Forceps	76 mm	Single packed / 20 units

Biopsy Forceps

- Elongated shaft to aid procedure
- Single-use eliminates cross contamination, inadequate samples & repeat procedures
- Used in nasal/oral cavity
- Stainless steel
- Sterile, single packed/units



Code	Description	Size	Packaging
DTR-OBF-1001-S	Biopsy Cup Forceps	90 mm, 2.5mm biopsy cup	Single packed / 10 units
DTR-OBFL-1001-S	Biopsy Cup Forceps	Large 120 mm, 4 mm biopsy cup	Single packed / 10 units

Nasal Splints - Internal

- Sterile, ready to use
- Punched suture holes
- Soft material for easy insertion and removal
- Surface with Lotus leaf effect (Silicone splints only)

Code	Feature	Material	Packaging
2030100	Standard / with airway	Silicone	5 pairs / box
2030110	Standard / without airway	Silicone	5 pairs / box

Nasal Splints - External Aluminium

- Easily malleable
- Self-adhesive back
- Self-adhesive Dorsum foam pad included

Code	Dimensions	Size	Packaging
2060200	56 x 38 x 30 mm	Small	10 pieces / box
2060300	64 x 40 x 36 mm	Medium	10 pieces / box
2060400	66 x 42 x 45 mm	Large	10 pieces / box

Nasal Splints - External Aluminium, Sets

Each box includes:

- 1 x nasal splints of the indicated dimensions
- 1 x foam protective bases
- 1 x alcohol swabs (cleansing swabs)
- 1 x Skin Prep™ (skin protection swabs)
- 1 x nose strips (sterile nasal strips)
- 1 x Remove™ (adhesive removal swabs)

Code	Dimensions	Size	Packaging
2060200-K	56 x 38 x 30 mm	Small	1 box
2060300-K	64 x 40 x 36 mm	Standard	1 box
2060400-K	66 x 42 x 45 mm	Large	1 box

2. RHINOLOGY: NASAL SPLINTS

Nasal Splints - External Thermoplastic

- Much less time and work required than with plaster of paris
- Includes three-part foam bridge
- Self-adhesive back

Code	A x B x C	Thickness	Size	Packaging
2050100	56 x 38 x 30 mm	2.4 mm	Small	10 pieces / box
2050200	64 x 40 x 36 mm	2.4 mm	Medium	10 pieces / box
2050300	66 x 42 x 45 mm	2.4 mm	Large	10 pieces / box
2051100	56 x 38 x 30 mm	1.6 mm	Small	10 pieces / box
2051200	64 x 40 x 36 mm	1.6 mm	Medium	10 pieces / box
2051300	66 x 42 x 45 mm	1.6 mm	Large	10 pieces / box
2051010	100 x 75 mm	1.6 mm	Large - Trimmable	10 pieces / box

Septal Button, Silicone

- Sterile, ready to use
- For non-surgical closure of septal perforation
- Soft material for easy insertion and removal
- Silicone prevents adhesion
- No scabbing, epistaxis or other septal perforation symptoms

Code	Size	Feature	Packaging
2031100	3.2 cm	One part	1 piece
2031110	3.2 cm	Two parts	1 piece

2. RHINOLOGY: NASAL THUDICHUMS

- Strong flexible stainless steel construction with smooth edges
- Balanced sprung blades for ease of use
- Particularly suitable for clinic use
- Sterile, single-use

Code	Size	Packaging
MD-TNS-2003	Sizes 1, 2, 3	Multipack of 3, single packed 10 x 3 units
MD-TNS-2000	Size 0 (extra small)	Disposable, sterile single packed, box of 20
MD-TNS-2011	Size 1 (small)	Disposable, sterile single packed, box of 20
MD-TNS-2022	Size 2 (medium)	Disposable, sterile single packed, box of 20
MD-TNS-2033	Size 3 (large)	Disposable, sterile single packed, box of 20

3. BANDAGES: EAR & HEAD BANDAGES

- High quality material
- Ready for application
- Applied within seconds
- Optimal patient comfort

External nasal bandage

- For post-operative nasal surgery
- Absorbs nasal secretion
- Cotton compress contains a stretch net bandage
- Fits the nasal contour
- Non-sterile
- Latex-free

Code	Size	Packaging
10904	Universal	40 pieces / box

Ear bandage one-sided with Velcro

- Post-operative outer ear bandage
- Variability through hook-and-loop fastener
- Integrated compresses
- Post-operative outer ear bandage
- Easy handling
- Sterile

Code	Size	Packaging
35180	Universal	10 pieces / box

Elastic head bandages

- For post-operative head surgery
- Elastic stretch bandage with face opening
- Simple application
- Non-sterile

Code	Size	Packaging
90005	Large	25 pieces / box
90006	Small	25 pieces / box

Elastic compression bandage

- Compression for incisions in the area below the ear
- With ear slit and fixation strap
- Velcro sealing strip
- Simple application
- Non-sterile

Code	Size	Packaging
90007	Universal	5 pieces / box

Ear bandage two-sided

- Easy and quick application
- Optimal patient comfort
- Compress Included
- Ready for application
- Sterile

Code	Size	Packaging
35030	Small	5 pieces / box
35029	Medium	5 pieces / box
35028	Large	5 pieces / box

4. ORAL CAVITY: GAG COVERS, SUCTION TUBES

GAG COVERS, MEDASIL

- Offers protection for use with Boyle Davis Gag
- All resilient silicone
- Time saving – No stitching
- Easy to fit in seconds
- Radio-opaque
- Disposable – Low risk of infection
- Latex and phthalate free

DISPOSABLE SUCTION TUBES FOR MICROLARYNGOSCOPY (MLS)

- Distal opening (adherence protection)
- With suction control
- Sterile

Code	Length	Diameter	Packaging
3025020	250 mm	2.0 mm	10 pieces / box
3025030	250 mm	3.0 mm	10 pieces / box

VOICEINJECT®

- High-volume lumen to inject harvested fat cells
- Facet cut for simple and safe injection into the vocal fold
- Optimal length for transoral injection, working length 263mm, overall length 332mm
- Needle tip: 8mm with marking of the injection depth at 5mm
- Removable Handle
- Luer Lock Connector

Code	Length	Out. Diameter	In. Diameter	Packaging
3080-1000-01	263 mm	2.0 mm	1.6mm	1 Piece
3080-1005	263 mm	2.0 mm	1.6mm	5 Pieces

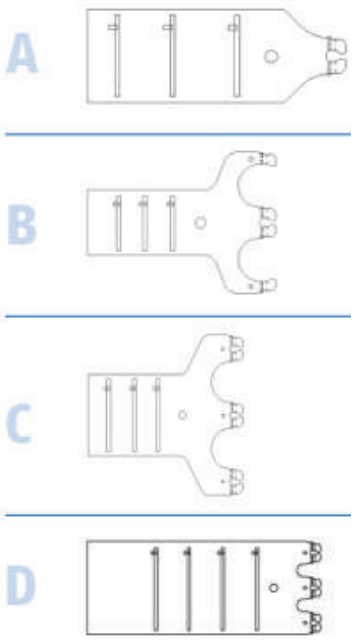
5. STERILE COVERS: FOR MICROSCOPES

For Leica and Wild-Leitz microscopes:

Code	Dimensions	Shape	Lens	Feature	Packaging
2500110H	115 x 180 mm	D	70 mm	Angled lens for Leica	10 pieces / box
2500120H	115 x 260 mm	D	70 mm	Angled lens for Leica	10 pieces / box
2500130H	137 x 265 mm	D	70 mm	Angled lens for Leica	5 pieces / box
2500140H	115 x 300 mm	D	70 mm	Angled lens for Leica	10 pieces / box

For Zeiss, Kaps or Moller-Wedel microscopes:

Code	Dimensions	Shape	Lens	Feature	Packaging
2548020F	50 x 155 cm	A	48 mm		10 pieces / box
2548050F	115 x 180 cm	D	48 mm		10 pieces / box
2548090H	115 x 210 cm	D	48 mm		10 pieces / box
2565070F	50 x 160 cm	A	65 mm		10 pieces / box
2565020H	115 x 180 cm	D	65 mm		10 pieces / box
2565030H	115 x 260 cm	D	65 mm		10 pieces / box
2565040H	115 x 30 cm	D	65 mm		10 pieces / box
2565050H	115 x 210 cm	D	65 mm		10 pieces / box
2565080H	125 x 67 x 155 cm	B	65 mm		10 pieces / box
2565090H	137 x 260 cm	D	65 mm		5 pieces / box
2565120F	50 cm		65 mm	Cap-shaped	10 pieces / box



Sterile microscope covers with glass lenses:

Code	Dimensions	Shape	Lens	Feature	Packaging
2565030GL	115 x 260 cm	D	65 mm		10 pieces / box
2565035GL	120 x 260 cm	D	65 mm		10 pieces / box
2565040GL	115 x 300 cm	D	65 mm		10 pieces / box
2565090GL	137 x 260 cm	D	65 mm		5 pieces / box
2565100GL	137 x 380 cm	D	65 mm		5 pieces / box
2500130GL	137 x 265 cm	D	70 mm	With angled glass lens	5 pieces / box

SUNDRY COVERS

Code	Dimensions	Type	Packaging
2500010	Universal	Microscope handgrips	20 pairs / box

6. LID IMPLANTS: FLEXIBLE PLATINUM EYELID WEIGHTS

- The Berghaus/Schrom Lid-Chain is an implant to restore dynamic closure of the eye in cases of lagophthalmos resulting from facial paralysis.
- The implant is in the form of chain and thus the malleability results in an optimal adaption to the form of the tarsus.
- The pre-drilled holes are to be used for easier fixation.
- Using platinum and iridium has many advantages over the commonly used gold implants, particularly when considering weight distribution and biocompatibility.

- The implants are available in eight different weights, ranging from 0.6 g to 2.0 g. The optimal weight is ascertained by way of a preoperative 'test fitting'.
- For this purpose **test weights** are used which are fixed with an adhesive strip onto the eyelid, in order to determine which weight is needed to result in the desired closure of the eyelid.

Code	Description	Weight	Material	Packaging
1500-06	Lid chain	0.6 g	Platinum / Iridium	1 piece (sterile)
1500-08	Lid chain	0.8 g	Platinum / Iridium	1 piece (sterile)
1500-10	Lid chain	1.0 g	Platinum / Iridium	1 piece (sterile)
1500-12	Lid chain	1.2 g	Platinum / Iridium	1 piece (sterile)
1500-14	Lid chain	1.4 g	Platinum / Iridium	1 piece (sterile)
1500-16	Lid chain	1.6 g	Platinum / Iridium	1 piece (sterile)
1500-18	Lid chain	1.8 g	Platinum / Iridium	1 piece (sterile)
1500-20	Lid chain	2.0 g	Platinum / Iridium	1 piece (sterile)
1500-PGSET	Testweight Set		Stainless Steel	8 pcs. / box

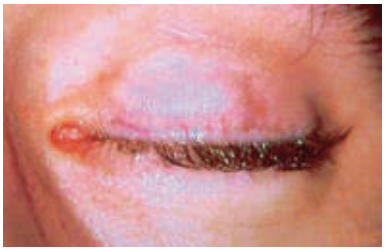
Lid-Chain Material:

- Platinum/Iridium (Pt/Ir) alloy, 97% / 3%

Testweights Material

- Stainless steel (not suitable for implantation)

Rigid Gold Implant



Flexible Lid-Chain

The advantages of the Lid-Chain in comparison with conventional implants:

- Flexible
- Very good tissue compatibility.
- Increased density (volume reduction > 10%)
- Optimal pretarsal placement
- Reduction in postoperative complications
- Excellent results

INOMED C2 XPLORE NERVE MONITOR

Intraoperative Neuromonitoring

- Ear, Nose and Throat Surgery
- Facial Nerve Monitoring
- Thyroid Surgery

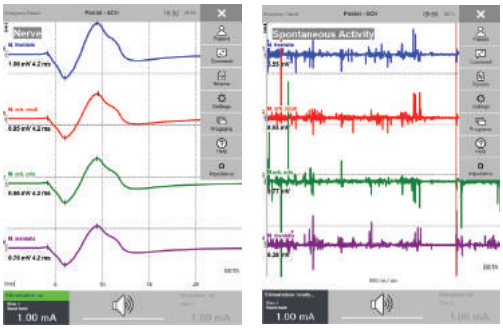
Safe Nerve Monitoring with Visual and Audio Feedback

The C2 Xplore Nerve Monitor provides the optimum solution for efficient and safe intraoperative neuromonitoring (IONM).

The digital solutions of the C2 Xplore offer increased comfort during surgery and post-operative evaluation. Data acquisition and analysis is simplified, surgical performance is optimised and treatment results are improved.

Ear, Nose and Throat Surgery

- Specially developed software for ENT surgery
- Channel Ident function to locate nerve branches
- Detection of spontaneous activities
- Powerful and quick-to-use systems
- Smooth interface functions



Thyroid Surgery

- Specially developed software for laryngeal nerve monitoring
- Intermittent IONM
- Continuous Vagus IONM
- 8 long measuring contacts instead of the conventional 2 or 4
- 360° sensor surface

7. INOMED NERVE MONITOR & CONSUMABLES

Stimulation Probes

Code	Description	Size	
525603	**Stimulation probe, monopolar:** 1.5mm touchproof connector, active tip 2 mm, angled 30 deg With neutral SDN electrode black. Single-use, ETO sterilised.	Probe length: 4.5 cm Total length with handle: 16 cm Cable: 3 m	
522603	**BCS Probe:** Angled, bipolar concentric for direct nerve stimulation. Single-use, ETO sterilised.	Probe length: 4.5 cm Total length with handle: 15.5 cm Cable: 3 m	
522610	**Microfork probe:** Straight bipolar for direct nerve stimulations. Single-use, ETO.	Probe length: 4.5 cm Total length with handle: 15.5 cm Cable: 3 m	

Thyroid Electrodes & Accessories

Code	Description	Size	
530855	**Laryngeal Electrode**: Select for tube with **6-7 mm** dia. With neutral adhesive electrode. Single-use, ETO sterilised.	Adhesive surface length: 32 mm Adhesive surface width: 29 mm	530856	**Laryngeal Electrode**: Select for tube with **7-9 mm** dia. With neutral adhesive electrode. Single-use, ETO sterilised.	Adhesive surface length: 32 mm Adhesive surface width: 37 mm	
	ALM Tube in 3 sizes:		
530845	ALM Tube (7 mm)	Inner diameter of 7 mm	
530846	ALM Tube (7.5 mm)	Inner diameter of 7.5 mm	
530847	ALM Tube (8 mm)	Inner diameter of 8 mm	
522623	**DELTA Electrode (With integrated connection cable)** For continuous vagus monitoring.		

7. INOMED NERVE MONITOR & CONSUMABLES

Facial Electrodes

Code	Description	Size	
534671	**SDN Double Needle Electrode Blue/Red With SDN Trigon Green Electrode 2 Channel Set:** Single-use, ETO sterilised. 5 sets (10 Double Needle electrodes, 5 Green Gound electrodes).	15/1500, stainless steel 1.5 mm touchproof connector. Needle length: 12 mm Needle distance: 2.5mm Cable length: 1.5 m	
534643	**SDN Double Needle Electrode Blue/Yellow/Grey/Violet With SDN Trigon Green Electrode 4 Channel Set:** Single-use, ETO sterilised. 4 sets (16 Double Needle electrodes, 4 Green Ground electrodes).	15/1500, stainless steel 1.5 mm touchproof connector. Needle length: 12 mm Needle distance: 2.5mm Cable length: 1.5 m	
8. REUSABLE INSTRUMENTS

Spiggle & Theis Reusable Instruments

CoreMed supplies a comprehensive range of reusable instruments from Spiggle & Theis. We supply all of the essential instruments for ENT surgery, as well as having various standout products, such as The Spiggle & Theis Black Line and **Panetti Instrument Line**.

Our instrument range currently covers the following categories:

- Otology
- Rhinology
- Sinus
- Larynx
- Endoscopy
- Oral Cavity

If you would like a hard copy of our re-usable instruments catalogue, please contact us.

Alternatively, **Scan the QR code** to download the digital catalogue.
